WASHINGTON, D. C., SATURDAY MORNING, MAY 19, 1888.

THREE CENTS.

SCORING A LORD MAYOR.

BOSTON'S SHUT OUT.

The Chicago Give the Beaumasters a Fearful Drubbing.

Chicago, May 18.—Fifty-five minutes were put to-die before the game was given to Chicago. The cold and unmerciful weather and wet grounds rendered Morell and Anson both willing that Lynch should call the game.

Rathbun's delivery was hit very hard from the beginning. The first six men at the bat were all base on balls, but once the single exception being to 1851. The day saw the water reaching the dangerous point, and from that time has risen steadily, at the rate of from four to fourteen inches daily. The government gauge now marks nineteen feet nine inches, being seven inches higher than during the great flood of 1881.

Above and below Quincy are over 100 miles of levees for the protection of fully 200,000 acres of land, the most productive farming lands in the valley. On Sunday morning the first break occurred in one of these great embankments known as the Indian Grove levee. During the day two other crevasses were made and within a few hours thousands of acres of winter wheat, that promised a bountiful crop, from forty to sixty bushels an acre, were laid waste.

The farmers had been working upon the embankment, and when the water was saving their homes, they were forced to flee.

The tragic scenes at Pittsburgh, Detroit, and Indianapolis; and the Athletic-Cincinnati at Philadelphia, were postponed on account of the heavy rain.

United Ireland vigorously scores the national members of parliament for their uniformly small attendance in the house of commons, when the needs of the cause in which it is engaged demand the presence in its seat of every man.

There being eighty-six Farnellite members in the house, as there should be, the paper asserts, half of that force is really effective. This article is evidently written with special reference to the vote on the King-Harman

county bill the other evening when the attendance of nine more Irish members would have given it a majority, and so out of the government, and its appearance in a paper whose editor has once deliberately deprived his party of its parliamentary services by defining the government to the end of his political life.

It is to be hoped that his kind will be associated with excellent prospects of success in its force.

No foreign arbitration society has yet been organized in an illuminated ad-

eliorating him for his services in the treas

party of anti-clericals collided with a society similar in Barossa, Australia.

In the hot summer of 1851.

The Ulster liberal unionists have adopted resolutions favoring the extension of the Ashbourne act pending the adoption of a fundamental peace, and in favor of set

lement of the land question.

Gen. San Mozano has returned to Rome.

The sultan has ratified the Suez canal con-

vention.

The Farnellite manifesto has startled the Vatican authorities, who thought the papalities would follow the priests in submission. Archbishop Walsh had conferences with Cardinal Moran, of Sydney, N. S. W., before his departure.

THE FEVER HAS LEFT HIM.

Emperor Frederick Contemplates a Summer Tour.

BERLIN, May 18.—A bulletin issued this morning says: The emperor is without fever. The difficulty he experienced in swallowing is nearly disappeared. His general condition is so satisfactory that he will be allowed to spend the greater part of the day in the open air. His strength is increasing.

Emperor Frederick remained in the park from 5 to 7 o'clock this evening, driving about the town between resting in the carriage. The evening constitution of the doctors was held in the tent. On leaving the park the emperor walked up the steps of the Palais du Luxembourg, supporting himself on the balustrade. He was also able to visit the chapel. If the improvement of the past few days continues he will go to Potsdam after Prince Henry's visit to Homburg.

An imperial rescript is to be issued prohibiting, as far as possible, Frenchmen and Alsace-Lorraine in reprisal for ab-

stracts placed in the way of Germans on the French side of the frontier.
